

YOUNG SCHOLARZ

Lifelong Learning

WELCOME

Dear Prospective Student,

A scholar is someone who has a continual inquiry for learning and this is what we nurture when students join our learning programmes. At Young Scholarz, we believe that nothing is binary and that anyone can improve at anything if they are able to identify their areas of weakness and are given the right tools. With this as our guiding principle, we work towards a mission of equipping students with lifelong learning strategies that prepare them for school, university and beyond.

We are hugely experienced and passionate teachers offering uniquely curated, customised and wide ranging teaching programs to prepare students to score excellently in their exams and also to transition from school to university with confidence. Our students initially come to seek academic guidance to bridge gaps in their learning but ultimately leave with a deep understanding of how English Language and Literature particularly, underpin many other academic subjects.

We teach with a systematic structured approach and students see an improvement in all aspects of their learning. Whether you choose to become a banker a scientist or an artist - every which way all professions benefit from an appreciation of the written word. Many students join us at grade 8 and are supported by us till grade 12, successfully graduating to become part of a dynamic alumni community of life-long learners. We provide platforms to discuss career opportunities, helpful resources for professional growth, as well as encouraging collaborations.

I hope you will be a Young Scholar with us and allow us to be part of your Lifelong Learning Journey!

SUNITA SHARMA

Founder and Coach

Young Scholarz

OUR MISSION

Our mission is to empower students with lifelong learning strategies that prepare them for school, university and beyond.

OUR VISION

Our vision is to build an international educational community that furthers students' growth and personal success.

OUR CORE VALUES

EXCELLENCE: We provide excellence in quality across all aspects of our teaching.

ADAPTABILITY: We stay agile and work with a sense of urgency to adapt to changing circumstances.

INTEGRITY: We build trusting relationships with members of our community and operate with integrity at all times.

CONTINUOUS LEARNING: We foster an environment of continuous learning and remain committed to constantly improving our quality and services.

OUR APPROACH

LIFELONG LEARNING

We teach, not tutor. We help students attain a deeper understanding of what is being taught and apply that universally. Students enroll with us from Grade 8 and continue until university and beyond. We help prepare them towards achieving long term goals, rather than only short-term achievements .

DISTINCTIVE INSTRUCTIONAL APPROACH

We offer a rich learning experience due to our diverse academic and professional experience in fields such as Biochemistry, Chartered Accountancy and Scriptwriting. Our classes adopt a systematic approach and are relevant, engaging and allow for cross-subject application.

HYBRID MODEL OF 1:1 AND GROUP CLASSES

We assess each student's needs individually and encourage them to be part of group lessons to learn core subject techniques and strategy. 1:1 sessions tackle specific academic problem areas and consolidate learning, helping the student be more confident to achieve higher grades.

CURATED COURSES WITH DETAILED FEEDBACK

Whether group or 1:1 sessions, we offer extensive regular question and exam practice giving detailed feedback through a framework of rigorous individual marking followed with regular communication and informative webinars for parents

OUR TEACHING METHODOLOGY

We teach a hybrid model of solo and regular timetabled group classes (currently online) and following an individual assessment of needs, we generally recommend that students start their learning in a group class and once core theory has been understood, group sessions can be complemented with solo classes to consolidate learning and address any specific concerns.

Regular subject sessions are supplemented with additional focussed bootcamps such as specific literature texts, SAT/ ACT coaching, classes for those new to Young Scholarz and needing to transition between grades or writing personal essays for university!

We curate study plans to address the whole academic syllabus, splitting subjects into smaller modules for a targeted approach to learning. We have developed effective strategies which apply the structured, formulaic techniques required for maths and science to the subjective nature of language to achieve consistently excellent results.

By uniquely applying mathematical, systematic and analytical learning methods to essay based subjects, conducting intensive exam practice sessions followed up with detailed, tailored feedback on each student's assignment, we coach on where and exactly HOW to improve.

OUR PROGRAMMES

PRE-IGCSE GRADES 6-8

The subjects we teach are

- Pre-IGCSE English Literature
- Pre-IGCSE English Language

IGCSE GRADES 9-10

Some of the subjects we teach are

- English Language

ADDITIONAL SERVICES

PAPER MARKING

Young Scholarz provides expert marking and feedback on IB / IGCSE exam papers and PSAT/ SAT/ ACT/ GRE/ GMAT essays. Unless you know where you have gone wrong and how to improve, your practice efforts will be ineffective. Thankfully, we can mark your papers and provide extremely detailed feedback that is invaluable and will help you get the grades you want!

To know more about our paper marking services, please visit <https://youngscholarz.com/paper-marking/>

ACADEMIC COUNSELLING

As a parent and/or student, you can book a solo session with our Founder and Coach, Sunita Sharma, to discuss academic needs, career choices and general education concerns.

Sunita has counselled and supported over 500 students in the past 13 years and being a parent herself, is experienced and aware of the competitive and challenging nature of education.

TYPES OF CLASSES

WEEKLY STRUCTURED CLASSES

We run weekly group classes through the whole academic year. These classes are designed to teach core topics and strategies, bridge learning gaps, and ensure the exam syllabus' are fully mastered. Students who attend these classes are provided with detailed feedback on their in-class assignments and homework.

INTENSIVE EXAM PREP CLASSES

Leading up to exams, we hold intensive exam preparation classes where students learn exam strategies and practice full-length papers. Marking of these papers is included as a part of the classes. We teach them where and how they can improve to ensure they ace their exams!

TRANSITION PROGRAMME

Before a student begins the new academic year, we support them with classes during the holidays. These classes are ideal for students who are progressing from Grade 9 to Grade 10 and are looking to sit for their first board exams, or for those transitioning from IGCSE to IB (Grades 10 to 11) or between education systems.

1:1 PERSONALIZED SESSIONS

Individual classes are suggested for new students, to devise a suitable study plan. Following attendance at relevant group sessions, further solo classes are encouraged, particularly nearer to exam dates, for students to consolidate their learning and address any specific weak areas in order to optimize performance.

WORKSHOPS

The sessions often held during school holidays, are aligned to the needs of the academic calendar. Offering supplementary language and literature workshops, catering to specific topics and texts, these classes are ideal for students who missed classes or need revision/teaching of specific areas of study.

BOOTCAMPS

Bootcamps are unique enrichment classes that support a student's journey beyond Grade 12. These include developing skills such as internship applications, resume writing, interview practice or simply guidance through the academic journey. These can be either 1:1 or as a group session.

MEET OUR FOUNDER

SUNITA SHARMA
Founder and CEO

“My aim is a simple one. I would like to share with you what I know and learn more about what I don’t. How you use it will be your choice, but I will have tried my very best”.

Sunita Sharma, the Founder of Young Scholarz, is driven by the belief that the future can be shaped in whichever way we choose to imagine it and a sound educational foundation coupled with the right encouragement, can definitely allow everyone to achieve their goals. The determination to help students find and build upon their strengths to emerge as qualified, confident young adults is the driving force of her dedication and commitment as an educator and influencer.

Assuming the role of a full-time Mentor and Professional Educator in Singapore in 2008, Sunita has taught in excess of 30,000 hours and successfully nurtured and supported hundreds of students, from their high school years to university applications, across the globe. As an academic coach, she is well known for her unique methodology and specializes in teaching English Language and Literature at IGCSE, IB, SAT and GRE levels. Her diverse academic background, experience and knowledge lend themselves to seamlessly support students across their education and additionally extend to subjects such as Economics, Business Studies, French and Accounting.

STUDENT STORIES

“

"Hi Sunita, this is just amazing! I am asking myself why I didn't send my son earlier to you. You are too good, my son is so happy with the way you have corrected his mistakes and feels that you can guide him thoroughly. He said that in his school, his teacher says 'very nice' to everything. How I wish, every school has teachers like you. Thanks a lot."
